Who needs to file an IR6 return?

If you are a trustee of a trust, or the executor or administrator of a deceased person's estate you need to file an IR6 to account for the income the estate or trust earns.

Have you received any income from the sale/disposal of property?

Show any income from taxable property sales at Box 16 of the return, if not already included elsewhere in the return. A *Property sale information (IR833)* form may also need to be completed if not already done.

Under the bright-line test for the sale/disposal of property, if the estate or trust acquired residential property on or after 1 October 2015 and sold it within two years, any gain will need to be accounted for.

Residential land withholding tax (RLWT) credit

If the estate or trust is an "offshore RLWT person" and has sold or transferred residential property located in New Zealand, RLWT may have been deducted from the sale price. Enter the amount of any RLWT deducted from the sale price, less any RLWT paid back to the estate or trust and/or transferred to outstanding amounts during the income year. If there was more than one amount deducted, show the combined amount. Print the total in Box 16AA.

Show the name of the estate or trust's withholder(s) in the "Name of payer" box.

Calculate tax on taxable income of beneficiaries, using the tax rates below.

Nil trust returns

If the trust receives any income, eg, interest, the trustee must file a return regardless of the amount of income derived. Where a trust has no prospect or intention of deriving any income in a given financial year, please call us on 0800 377 774 with the name and IRD number of the trust so we can record that a return isn't required for that year. If the trust subsequently derives income in a future year, the trust must send in a return.

This only applies to trust returns. Estates are still required to file a return of income regardless of whether they have derived income.
