Notes

Entering an existing group

A company that joins an existing consolidated group will be treated as a member of the group from the start of the income year in which it notifies us, as long as the company gives notice within 63 working days of the start of that income year.

A newly incorporated company can join an existing group from the beginning of the income year of incorporation if it notifies us within 63 working days of incorporation.

A newly acquired company can join an existing group from the day it becomes eligible to be a member, provided it notifies us within 63 working days of eligibility.

All other elections will apply from the beginning of the following income year, unless the Commissioner is satisfied the appropriate notice of election could not reasonably have been made within the 63 working day timeframes.

Losses to carry forward

Enter any losses to carry forward at the end of the previous income year.

Leaving a consolidated group

Unless otherwise requested, membership will cease from the beginning of the income year in which we are notified. Alternatively, you can request that the company's membership cease from the beginning of the following income year.

Certain events, such as liquidation, will necessitate membership of the group to cease during the income year rather than at the end of the year.

Change in nominated company

It is the responsibility of the exiting nominated company to advise us if there is to be an alternative nominated company for the consolidated group. The change of a nominated company will apply from the date we receive the notice, unless a later date is specified on the notice.

Election to maintain trading stock concession

Subject to certain conditions there is an alternative to valuing trading stock under subpart EB of the Income Tax Act 2007 ("the Act"). Section FM 17 of the Act allows a nominated company to value trading stock transferred within the group at its value at the beginning of the year, and to value stock purchased during the year at its cost.

Application to limit joint and several liability

The requirement for joint and several liability may be limited to one or more companies of the group. We must be satisfied that the nominated company or companies are able to meet the income tax liability of the consolidated group.
