The rates on the chart are based on your eldest child being under 16 and all other children being under 13. To work out how much you can expect if you have children older than this you'll need to:

- add \$9 to the "FTC" amount for each child (other than the eldest) aged 13, 14 or 15
- add \$9 to the "FTC" amount if your eldest child is 16, 17 or 18
- add \$27 to the "FTC" amount for any other child aged 16, 17 or 18

If you're receiving a foster care allowance (board payments from Oranga Tamariki—Ministry for Children) or supported child's payment, orphan's or unsupported child benefit, the amounts listed in the chart above may not apply to you. Our online calculator **Estimate your Working for Families Tax Credits** in the "Work it out" section, (search keywords: working for families tax credits), can help you estimate your entitlement. Or you can call us on 0800 227 773 and we'll help you calculate your correct entitlement.

MINIMUM FAMILY TAX CREDIT (MFTC)

If your family income is below \$26,156 a year after tax (or \$30,516 before tax) you may also be entitled to this payment.

- The amounts in the charts are estimates only, and are initial payment amounts which may alter if your circumstances change. If your income is above \$120,500 or you have more than six children, use our **Estimate your Working for Families Tax Credits** calculator at www.ird.govt.nz (search keywords: wfftc calculator), or call us on 0800 227 773.
- To see which payment types you are eligible to receive, go to www.ird.govt.nz (search keywords: understanding wfftc).
- You can't receive Working for Families Tax Credits (WffTC) and the independent earner tax credit (IETC) at the same time. If you currently receive the IETC by using the ME or ME SL tax code and are entitled to WffTC, you must change your tax code with your employer at the same time as you apply for WffTC.
