Dear [Redacted]

Thank you for your request made under the Official Information Act 1982 (OIA), received on 24 March 2026. You requested the following:

*Your press release reminded me to ask for a bit of info I've been looking for about how much PIE tax is collected every year.*

*What I would like is:*

*Both gross and net PIE tax data for every financial year from inception (which I think would be 2006/7) until the most recent period (probably 2024/25 but if you have 2025/26 numbers, even preliminary, I'd like that too.)*

*I expect this data should be easy to come by but I've tried to find this in budget docs etc and have never found it.*

On 27 March 2026 you clarified your request to:

*PIE tax collected every financial year, and*

*PIE tax refunded every financial year.*

*So, the gross figure would just be the PIE tax collected, and the net would subtract the refunds.*

**Information released**

We have interpreted your request as seeking the assessed PIE income and refundable for the financial years within the specified period.

As requested, preliminary PIE results for the 2025/26 period are included in the data table for the current period, up to 28 February 2026. PIE results are finalised on a March year basis to include final March income, distributions, exits, and tax adjustments. As the annual returns containing the relevant information for the 2025/26 financial year period are not due yet, final outcomes may vary significantly from the provided preliminary data.

Please find the information you requested in the following table:
