

18 May 2023

Dear 

Thank you for your request made under the Official Information Act 1982 (OIA), received on 21 April 2023. You requested the following:

*For those that receive an employer contribution to their KiwiSaver account, the total number of KiwiSaver members by income band and KiwiSaver contribution rate (i.e 3%, 4%, 6%, 8%, 10% and none) for the year ended 31 March 2021.*

The attached table is limited to those members who received an employer contribution during the 2021 tax year. The member population is as at 31 March 2021. The contribution rate reflects the rate contributed through PAYE at the end of the 31 March 2021 tax year.

The income groupings are based on the total income for the 2021 tax year. The total income includes Portfolio Investment Entity (PIE) income. PIE income from KiwiSaver may be the only income for some members. These members have been treated like any other members and are grouped into the appropriate income group.

The " $\leq$ \$10,000" income group also includes some people who reported income loss for the year.

Please note that where a KiwiSaver member also belongs to an employer-based superannuation scheme and their employer is making contributions to that scheme, it is unlikely they will also make contributions to the member's KiwiSaver account. It is also the case that where a member is over 65, their employer is not required to make compulsory employer contributions to their KiwiSaver account.

### **Publishing of OIA response**

Please note that Inland Revenue regularly publishes responses to requests that may be of interest to the wider public on its website. We consider this response is of public interest so will publish this response in due course. Your personal details or any information that would identify you will be removed prior to it being published.

Yours sincerely

Estelle Le Lievre
