* User access to all client main is limited to viewing the letter list only. Users cannot open letter PDFs or export the letters

Restricted administrator access

If you're a Restricted administrator, you have access to all the features and functions of an Administrator, except you cannot view any customer level mail issued for the intermediaries' own tax affairs. This does not affect account level mail for accounts you have been given specific access to. For example, a Restricted administrator who has been delegated access to the intermediaries' GST account.

PAYE intermediaries only manage PAYE (EMP)

Unlike Tax agents, PAYE intermediaries will not be able to:

- add a Customer master link (so no ability to apply for an IRD number or access customer level mail)
- use the Financial transfers facility or access the transfer credit calculator
- choose to redirect mail or refunds you will receive all mail and refunds by default.

Important note

When you register a client for EMP from the Intermediary centre, you will automatically be linked for EMP.
